Cap Adjustment for Wildfire Suppression ⁷		-	-	-	-	\$1,950.00	\$1,950.00

⁵ The wildfire funding fix (enacted in FY 2018 Consolidated Appropriations Act to go into effect in FY 2020) freezes the Forest Service's suppression budget line item at the FY 2015 10-year average (calculated to be \$1,011 million). It also provides a budget cap adjustment to access additional funds needed for suppression in excess of this line item if that amount is exhausted.

⁶ The FY 2017 Consolidated Appropriations Act supplied \$342 million for the FLAME Wildfire Suppression Reserve Fund as emergency spending.

⁷ Beginning in FY 2020 through FY 2027, the Forest Service and the Department of the Interior will have new budget authority available when suppression funding has been exhausted (enacted in FY 2018). This budget authority starts at \$2.25 billion in FY 2020 and increases by \$100 million each year through FY 2027. The FY 2020 budget requests the full \$2.25 billion adjustment with \$1,950 million for Forest Service and \$300 million for the Department of the Interior and those amounts passed in the final FY 2020 bill.
