

Washington Department of Natural Resources

Federal Lands Program

2022 Winter Update

The Washington State Department of Natural Resources' Federal Lands Program (FLP) enters into the 22 Winter Season with near completion of the program's **21-23 targets, with approximately 78% complete** and are on track to meet or exceed program targets, working with the department's Good Neighbor Authority extensively.

BY THE NUMBERS 2017-2022

- **18,500** acres of statewide restoration projects
- Installations or designs of **47 Aquatic Improvement Projects** as well as about **208 miles** of road improvements and **31 miles** of roads decommissioned.
- **22** sale contracts sold;
 - **93.7 MMBF**
 - **8,570** acres
- **15** fuels reduction contracts sold:
 - **9,930** acres
 - **\$5.2M** to private contractors

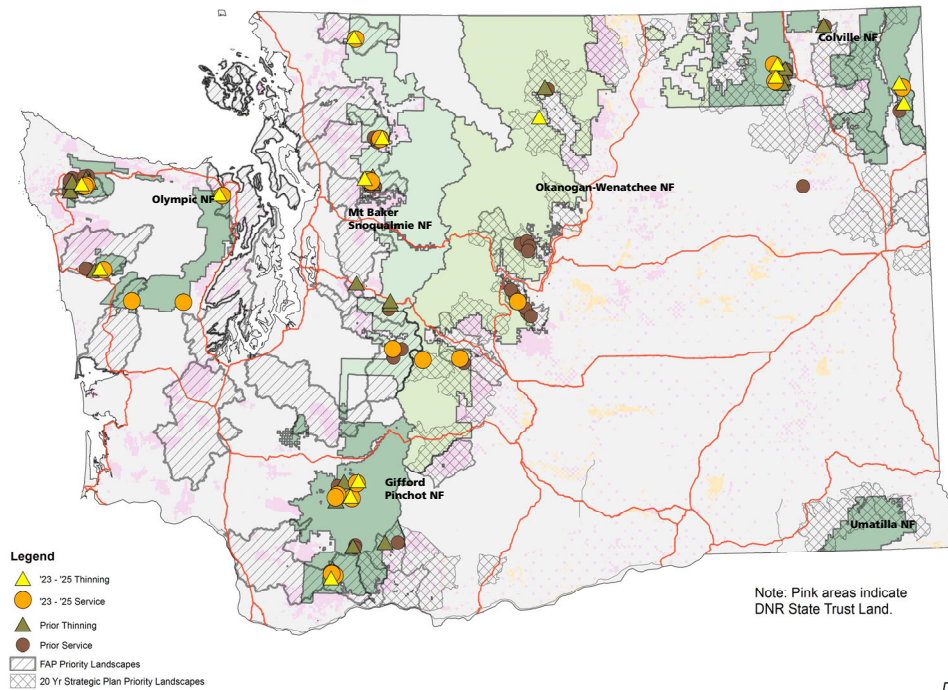

Federal Lands Staff Spotlight:

John Perry comes to the FLP as the newly hired **Environmental Planning Program Manager** who will be leading the FLP National Environmental Policy Act (NEPA) capacity built from 2SHB 1168, dedicating state resources to **accelerating the NEPA process on federal lands statewide.**

Prior to the DNR, John served in the Army for over 21 years as a Military Police Officer, and Engineer, working across the globe in these capacities. John participated in the **Army's WorkEx Internship program**, helping him transition from his time in service to the a his career with the DNR.
